 **ODISHA**
NEW OPPORTUNITIES

Think Investment. Think Odisha.

SMART VILLAGE

Project BY- JHUMAR LAL DAYANAND R & D CENTER. RENGALI.

HOW CAN TURN MY VILLAGE IN TO SMART VILLAGE

- Supporting methods to make the illiterate people to up their willingness towards education.
- Each and every villager should learn the various ways to earn.
- Encouraging villagers to trade and make money transactions by cashless way.
- Helping people to being benefited from all the govt. village improvement programs.
- Villagers should adopt zero tolerance policy to crime.
- Effective actions to make zero addiction village
- Policies and intent towards zero dropout student in the village with all kind of required support to the children.
- Panchayat and Block level public interaction meetings to identify and understand the small and huge problems of the villagers, taking necessary and effective steps for the solution of each.
- Adding support of modern technologies, public role and law for women safety.
- Providing regular Shram for the poor laborers those who are wondering jobless.
- **Ward wise discussions should be held on the real usage of Govt. led funds for development programs.**
- Women empowerment should be premium priority.
- Instructing villagers to make self -attempts to stop and oppose domestic violence in any family.
- Job for all programs should be held on ground level by attracting worldwide numerous technologies to learn and earn.
- Inviting greatest commercial farming techniques from the world as farmers economy can gain maximum profit and loss-free.
- Public awareness regular programs amongst villagers about all hazards (old and new) as they can stay healthy and adopt hygiene.
- Villagers can form self-groups for creating new sources of earning at home with their own unique skills and talents.
- Various skills development strategy programs.
- Special attention, help and support can be offered with the joint ventures of Govt. and villagers also playing part in it.
- Cow -protection, cow-sewa, Gou Anusandhan Kendra should be the prime insist of the villagers.
- Each house can establish a Stable (cows, goats, etc.). it will provide them easy and healthy food products and also earning.
- The villagers should consume and export **desi dairy products.**, local pottery products, bamboo products can replace beautifully our common furniture.
- Encouraging zero use of Harmful pesticides, fertilizers and replace it with desi supplements (e.g- neem oil, cow dung and other organic fertilizers)
- Organic farming should be encouraged for commercial values and self consumption.
- Village energy consumption can be replaced with **pollution-free and eco-friendly** energy resources (solar, wind, desi hydro mechanism).
- Each and every villager should plant a tree for better environment.
- Awareness to control and manage the waste products.
- Implementation of advanced Water management mechanisms for (reserving, recycling, reusing, for farming and domestic purposes).
- Installing cold and RO water machines for anyone to drink.
- Preparation of temples, Satsang - bhawan, Gyan-piths for the devotee villagers to perform their spiritual activities with peace.
- Every institution, every villager should organize regular cultural and spiritual functions so that everyone remains connected and devoted to Our Sanatani Dharm. Proselytization (Dharmantaran) must be strictly prohibited.

Senior citizen and Disabled residing should be provided extra care and aid by the kindfull attempts and cooperation of the villagers. Examples can be to provide blankets, shoes, lamps, cots, food, medicine, raincoats, umbrellas etc.
